Data Scientist familiar with gathering, cleaning and organizing data for use by technical and non-technical personnel. Advanced understanding of statistical, algebraic and other analytical techniques. Highly organized, motivated and diligent with significant background in visualization. Astute, calculating and attentive to specific business requirements. Successful history of identifying patterns, making interpretations and producing reports. Skills setting up databases and other frameworks, managing systems and aligning procedures with business needs.

## Skills

- Data Science
- Data analysis
- Statistical analysis
- Intelligence gathering
- Data Mining
- Machine learning
- Data management
- Project Coordination
- Technical Acumen
- Agile Framework Understanding
- System Engineering
- Hardware Development
- Software Improvements
- Testing Procedures

## Work History

- **Data Visualization Expert**

2020-04 - 2021-04

<https://elearning.tableau.com/>, Osogbo, Osun-State

- Evaluated trends to understand competitive environments and assess current strategies.
- Corrected any data entry error to prevent later issues such as duplication or data degradation.
- Evaluated consistency and importance of different business intelligence data against needs to determine optimal courses of action.
- Transformed project data requirements into project data models.
- Identified and documented project constraints, assumptions, business impacts, risks and scope exclusions.
- Created and improved intelligence resources to facilitate consistent results.
- Provided comprehensive analysis and recommend solutions to address complex business problems and issues using data from internal and external sources and applied advanced analytical methods to assess factors impacting growth and profitability across product and service offerings.
- Created data visualization graphics, translating complex data sets into comprehensive visual representations.
- Translated benefits of machine learning technology for non-technical audiences, including cost/benefit analyses.
- Scaled analytical capabilities across all business areas, evolving analytics to influence bank's strategic planning and executives' decision-making.
- Leveraged analytics to drive business development, productivity and process improvement and marketing strategies, including customer lifetime modeling, acquisition, retention, win backs and monetization.
- Designed and automated more than 10 innovative digitization and online marketing report tools and dashboards based on key performance indicators for different management levels, leading to increased transparency and sales performance.
- Evaluated processes and data, identifying productivity gains and sales growth within digitization segment.

### ● Internship Student

*Crestech Co. Limited, Lagos, Lagos*

- Aided problem resolution measures and suggested patches and hardware, software and network troubleshooting alternatives.
- Collaborated to assist support protocol development and offered consultation based on cross-functional knowledge.
- Assisted IT team members by crafting project research material for implementation.
- Built and provided basic end-user troubleshooting and desktop support on Windows, Linux and Mac systems.
- Handled computer system troubleshooting and provided technical support to entire team for computer operations.
- Identified and solved technical issues using variety of diagnostic tools and tactics.
- Installed, modified and repaired software and hardware to resolve technical issues.
- Devised solutions to operations issues related to system and software,

working closely via phone, email, live chat and web teleconference.

- Loaded software, granted permissions and configured hardware for new employees as part of onboarding process.
- Provided Tier 1 IT support to non-technical internal users through desk side support services.

## Education

### **Bachelor of Engineering: Computer Science And Engineering**

OBAFEMI AWOLOWO UNIVERSITY - ILE-IFE, OSUN-STATE

### **High School Diploma**

ROSEFUL INTERNATIONAL HIGH SCHOOL - OSUN-STATE, OSOGBO

## Certifications

Desktop I Fundamentals, Tablue Software - 1 year

Python For Everybody, University of Michigan offered through Cousera - 1 month

Advanced CSS3, Udemy - 1.5 hours

Pre-Programming, Udemy - 6.5 hours

2015-05 - Current

2006-06 - 2012-08
